## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 85-94 and 100-104 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 85 and 100, while the cited prior art (specifically the Shyu and Shimizu patents) discloses assisting a user in the remote parking of a vehicle and a mechanism for controlling the parking components of the vehicle, the art fails to teach a display allowing a user to define a **parking space** into which a vehicle is to be parked. Furthermore, the cited prior art fails to teach displaying a simulation of the parking of the vehicle into the user-defined space based on parameters determined by a processor before the vehicle is parked into the parking space. These limitations are deemed allowable above the cited prior art, art considered in the submitted Information Disclosure Statements, and other patent and non-patent literature considered by the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
